

TNT HI-ENERGY FISH 2-0-0

HEF 2-0-0 is a product of TNT Farming Solutions, LLC.
6928 S Benham Rd, Versailles, IN 47042
rdstephens324@gmail.com
(574) 532-6201

Product description:

HEF (2-0-0) is GMO-free, highly concentrated whole saltwater fish fermentation solubles and beneficial bacterial microbes that work synergistically to increase a plant's resistance to pathogen invasion through high-speed seamless colonization of the soil and plant microbiomes. The product is suitable for organic and non-- organic cultural practices. Specific microbes and ingredients in the HEF (2-0-0) are adversely impacted by soils that contain residue from the active ingredients and surfactants that are part of some pesticides. Similarly, the use of fungicidal products may hinder the performance of this product.

DIRECTIONS for USE:

HEF (2-0-0) is suitable for adding to the seed furrow and broadcast soil or foliar applications. Compatibility with other fertilizers or other spray materials should always be checked using a jar test.

The suggested use rate for in-furrow is ONE 1-3 quarts/acre in 30-inch rows.

The suggested bare soil or crop residue broadcast rate is 2-4 quarts/acre in a minimum of 10 gallons of water/acre. The suggested foliar rate is 0.5-4 quarts/acre in a minimum of 10 gallons of water/acre

Do NOT exceed 4 quarts/acre in 10 gallons of water per acre in foliar applications to avoid possible phytotoxicity. Use twinjet flat fan tips equipped with strainers sized according to the tip delivery rate.

STORAGE:

Freezing generally does not damage or alter the performance of the product. HEF (2-0-0) continues to produce a small amount of waste gas from the fermentation at temperatures above 40 degrees F. Vent the container during storage to avoid possible bursting of the container. Store HEF (2-0-0) in a cool place and out of direct sunlight.

CAUTION:

Keep out of reach of children and pets. Do not inhale or ingest. Avoid contact with skin, eyes, & clothes. If contact is made, flush eyes with water, clean skin, or wash clothes. Consult a doctor if swallowed. Wear protective gloves and wash hands thoroughly after handling. Do not eat, drink, or smoke when using this product. Handle in a well ventilated area.

NOTICE:

Seller warrants that product conforms to its chemical description and is reasonably fit for the purpose stated on this label when used in accordance with directions under normal conditions of use. Since weather, crop, and soil conditions vary, (TNT Farming Solutions) seller makes no warranty of any kind, expressed or implied, concerning the use of this product. User assumes all risks of use and handling, whether or not following directions or suggestions.
